OBJECTIVE: Computer Science student seeking a software co-op or internship for May–August 2027.

HIGHLIGHTS

- Honours Computer Science student at Conestoga College (Bachelor's expected April 2029) with an ICT specialist high-skills background.
- **CS fundamentals:** Coursework in data structures and algorithms, object-oriented programming, discrete mathematics, and operating systems. Team project in C used structs, arrays, doubly linked lists, and file I/O.
- **Programming:** C, C++, and C#, with JavaScript currently in progress; version control with Git and GitHub.
- **AI as a learning tool:** Use Claude and ChatGPT to learn concepts, test and correct my code, and get feedback on my work.
- **Collaboration and feedback:** Worked daily with coworkers, managers, and clients across sales and administrative roles, and applied feedback to improve how I worked.

EDUCATION

Honours Computer Science, Bachelor's Degree – Conestoga College, Kitchener, ON January 2026 – Present

Relevant coursework: Data Structures and Algorithms, Object-Oriented Programming, Software Implementation and Unit Testing, Discrete Mathematics, Linear Algebra, Operating Systems and Security Fundamentals, Computer Systems Architecture Fundamentals, Systems Analysis and Design, UX Design

Specialist High Skills Major: Information and Communication Technology – St. Marys Catholic High School 2020 – 2024

TECHNICAL SKILLS

Languages: C, C++, C#, JavaScript (learning) | Tools: VS Code, Visual Studio, Git, GitHub, Microsoft Office Suite | AI tools: Claude, ChatGPT

PROJECTS

DineTrack: Restaurant Order Management System (2026) | Team project of four | github.com/alievaz06/restaurant-order-management-system

- Co-developed a modular restaurant ordering system in C with three teammates, covering menu management, order processing, billing and discounts, receipt generation, and sales reports.
- Built the User Interface module (customer and employee menus, validated input, error and confirmation messages) and the Receipt Generation module (validated confirmed orders and produced formatted receipts from order and billing data).
- Followed test-driven development, writing test cases in Visual Studio and documenting the project in a README.
- Documented each module's purpose, functions, inputs, outputs, and interactions in a team report.

EXPERIENCE

Part-Time Receptionist, Crosby Volkswagen, Kitchener, ON August 2026 – Present

- Greet visitors and clients professionally, creating a positive first impression.
- Answer and route phone inquiries quickly and accurately to the right personnel.
- Maintain an organized workspace and process payments and paperwork accurately.

Sales Associate, American Eagle 2025 – 2026

- Assisted customers with personalized service, processed transactions accurately, and managed inventory to brand standards.

Sales Associate, The Aldo Group 2024 – 2025

- Delivered personalized customer service, processed transactions, and maintained store displays and inventory to brand standards.

Administrative Assistant / Receptionist, Destiney Driving School 2019 – 2024

- Scheduled and confirmed appointments, delivering top-tier customer service.
- Implemented office procedures that improved efficiency and productivity.
- Managed electronic inquiries, inventory, and data compilation that informed advertising strategies.
